

What is Abuse?

Abuse is not just an individual issue but a community issue. It effects all types of families and communities including S/M, traditional, straight, polyamorous, monogamous, lesbian, gay, bisexual, and transgender communities. Abuse crosses all social, ethnic, racial, and economic lines.

Abuse is a pattern of behavior where one person tries to control the thoughts, beliefs, or actions of a partner, friend, or any other person close to them. Abuse is sometimes also referred to as domestic violence, battering, and intimate partner abuse.

Abusers may use a number of ways to control their partner, none of which are acceptable in the context of a consensual, negotiated S/M relationship. These actions cannot be stopped with a safeword and can include:

Physical Abuse (i.e. hitting, punching, choking, kicking).

Emotional Abuse (i.e. verbal abuse, lying, undermining self esteem).

Sexual Abuse (i.e. forcing sex, rape, forcing sex with others).

Economic Abuse (i.e. controlling resources, forcing you to live above your means).

Outing (i.e. S/M, polyamory, GLBT)

S/M is Safe, Sane, and Consensual

Over 15 years ago, the SM/Leather/Fetish Community established a community-wide ethic known as "Safe, Sane and Consensual".¹

1. **"Safe"** is being knowledgeable about the techniques and safety concerns involved in what you are doing.
2. **"Sane"** is knowing the difference between fantasy and reality.
3. **"Consensual"** is respecting the limits imposed by each participant. One of the most easily recognized ways to maintain limits is through use of a "safeword" – whereby participants can withdraw consent at any time with a single word or

S/M is also Risk Aware Consensual Kink

Recently some members of the S/M community have allied themselves with a personal ethic known as Risk Aware Consensual Kink or RACK.

Risk Aware stresses the need for players to educate themselves about the potential risks involved in proposed activities and then make decisions accordingly. When players understand the potential risks involved in proposed activities they can then give informed consent to S/M play.

Consensual refers to the consent that is given based on negotiation and an agreement to respect established limits and/or safewords.

Kink is another term used to describe the myriad of activities contained in S/M.

Is it S/M or Abuse?

You might be abused if...

- You cannot withdraw consent and stop what's happening at any time.³
- You cannot express limits and needs without being ridiculed, criticized, or being coerced into changing them.¹
- Your partner threatens to out you for being into S/M or being polyamorous, gay, lesbian, bisexual, or transgender.
- Your partner prevents you from interacting in the S/M community or learning more about S/M.
- Your partner ignores your safewords or tries to convince you not to use safewords.³
- You cannot refuse to do illegal activities
- You cannot express feelings of guilt, jealousy, or unhappiness¹.
- You do not feel free to talk to family and friends whenever you choose.
- Your partner has threatened to harm your children, family, and/or pets.
- Your partner has threatened to hurt themselves or you if you leave the relationship.
- Your partner has destroyed or broken your personal belongings.
- Your partner claims the right to control your behavior by virtue of their S/M identity, gender, income, or other external factors.
- You are confused about when a scene begins or ends.³

The Difference Between SM and Abuse:

The most basic difference between S/M and abuse is **Consent**.

It is not consent if...

- You did **not** expressly give consent.
- You are afraid to say **no**.
- You say **yes** to avoid conflict.
- You say **yes** to avoid consequences (i.e. losing a job, losing your home, being outed).

S/M is...

- Always consensual.
- Done with respect for limits.
- Enjoyed by all partners.
- Fun, erotic, and loving.
- Done with an understanding of trust.
- Never done with the intent to harm or damage.

Just because you consent to play does not mean you consent to everything. You have the right to set limits.
