

~ THE 3 W'S OF ~ SAFETY PLANNING FOR QUEER EVENTS

WHO CAN HELP

Who are our supporters?
What can we ask them for?

Hey neighbor, we're hosting a drag story hour across the street. Could you watch for harassers outside and text me if anything seems off? No need to engage, just keep an eye out.

Of course! I'll let my crew know too!

Be safe!

WHAT TO DO

**Where are the exits?
What's the Signal thread?**

There are some anti's at the front door so we're going to send folks out the back way. Let us know on the Signal thread if they move.

You got it!

WHERE TO GO IN CRISIS

Call 911 or not? What are our group agreements if things escalate?

We know the police are on their way. What do we need to keep our folks safe? Who needs to know?

Let me check with the group!

SAFETY PLANNING

Safety planning is an art not a science, as the tools we share may not always be applicable to every situation, and the best tool is always planning ahead!
